

## GSM 3G/4G/ VoIP Gateway

### Dinstar UC2000-VA GSM VoIP Gateway

Dinstar UC2000-VA is a single channel GSM VoIP Gateway used to smoothly transit between mobile and VoIP networks, for transmission of voice and SMS both. It is excellent for corporations, multi-site organizations, call terminators, and places with limited landlines, such as rural areas, to decrease telephone expenses and enable easy and efficient communications, thanks to integrated GSM connectivity and SIP protocol compatibility with standard VoIP platforms.
