

GSM 3G/4G/ VoIP Gateway

Dinstar UC2000-VF GSM VoIP Gateway

Dinstar UC2000-VF is a 16-channel GSM/3G/4G VoIP Gateway in 1U field-proven hardware design, used to establish connections around mobile and VoIP networks, for transmission of both voice also SMS. It is suitable for enterprises, multi-site organisations, call terminators, and areas with limited landlines, such as rural areas, to cut telephony costs and enable easy and efficient communications, thanks to integrated GSM/WCDMA/LTE connectivity and SIP protocol compatibility with mainstream VoIP platforms. It works standalone and also supports remote SIMs management as an option with Dinstar SIMBank and SIMCloud.
